1. General

- a. In accordance with the order regarding closed areas (the West Bank area) (emended) (no. 34) 5727- 1967, the Judea and Samaria area is a closed area, where exit and entry require a permit by the military commander.
- b. The entry of a resident of the Gaza Strip into Israel requires a permit by the Gaza DCO, in accordance with the Entry to Israel order (Exemption of Gaza Strip residents) 2005, as well as under the authority of the “commander of the area” in accordance with the Citizenship and Entry into Israel Law (Temporary Order) 5763-2003.
- c. The exit of an Israeli, including an Israeli resident and a foreign national granted a residency permit in Israel, requires a permit issued by the commander, Southern Command and DCO Gaza on his behalf, as authorized by article 24 of the Disengagement Plan Implementation Law 5765-2005.
- d. Under the authority given to the COGAT actors, decisions made by the political echelon and security risks due to terror organizations exploiting and abusing movement of people – the implementation, shaping and definition of policy regarding people’s movement between the State of Israel, the Judea and Samaria area and Gaza Strip are inextricably linked to the shifting political-security circumstances. Accordingly, the criteria for movement of people are frequently reviewed by the relevant officials, and are derived from the aforesaid changing circumstances.
- e. In addition to compliance with the current authorizations, entry applications are also reviewed according to the necessary individual security checks required by security forces and the Israeli police, as well as the security, political and strategic interests of the State of Israel in approving the applications. These applications must comply with the administrative procedural reviews required by each relevant administrative authority. The authenticity of the attached documents is also examined, as well as the potential requirement for presentation of additional supporting documents.
- f. It should be noted that a Palestinian resident does not have a vested right to enter Israel, while an Israeli does not have a vested right to exit to the Gaza Strip.

- g.** For the sake of clarity, it should be noted that where the term “first-degree relative” is mentioned in this document, or any other document by COGAT relevant to movement of people between the State of Israel, the Gaza Strip and Judea and Samaria, it refers only to mother, father, brother, sister, children (boys and girls), husband/wife (married), unless it has been otherwise explicitly stated in reference to specific criteria in an updated document.
- h.** The relevant “Permit Charts” for the Palestinian population in Judea and Samaria and the Gaza Strip are attached in appendices below. The charts’ contents are intended to add and complement, where necessary, to the criteria detailed in the text. Each criterion in the body of the text should be read concurrently with the matching row in the charts.

In exceptional cases requests filed by the actors in the international community and recognized international NGOs are accepted.
