The coordinator of Palestinian agriculture is conducting the necessary procedures for the delivery of the goods mentioned below on the recommendation of the Ministry of Agriculture in Gaza. This includes the preparation of the necessary documents and regulations.

D. It is necessary to maintain a marketing area within the Gaza Strip and the capital, considering theโดยเฉพาะ điều kiện البيئية في إسرائيل. The Ministry of Agriculture in Israel will follow all this according to the Ministry of Agriculture in Israel and follow all the necessary procedures, including the establishment of marketing areas for agricultural products that are allowed to be marketed in this area.

E. On the basis of the above, the Ministry of Agriculture in Israel has set certain conditions for marketing the Argentine lamb, which are approved for marketing in the Gaza Strip and the capital. The Ministry of Agriculture in Israel will follow these conditions according to the Ministry of Agriculture in Israel.

Z. In the marketing requirements, which are mentioned for the Palestinian side in the marketing process,

Here are some of the marketing requirements:

1. It is necessary to place labels on the goods indicating their origin from the Gaza Strip.
2. A set of requirements related to hygiene and quality, which must be met by the suppliers.
In the context of the national security directorate, it is mandatory to submit a request to the Ministry of Agriculture within five days of the notification of the intended transfers. The Ministry of Agriculture will then conduct a preliminary evaluation of the request and will subsequently submit it to the Permit Office of the Administration for final approval. The Permit Office will then issue a permit for the transfer of the goods.

The Ministry of Agriculture is responsible for ensuring that all goods transferred to the Palestinian Authority are of high quality and meet the requirements of the Palestinian market. The transfer is only allowed when the goods are approved by the Ministry of Agriculture.
